Discussion: Matter of discussing a third-place tie in marihuana business license score ranking.

Mayor Terbrack outlined the discussion before Council this evening. He said it would be a discussion with Council members regarding the tie and there would be public comment.

City Attorney Dan Christ said as Council knows, during the last City Council meeting in January, it affirmed and accepted the recommendations of the hearing officer with respect to City Manager Baumgarten's scoring as modified and adjusted. He said in light of that meeting, there are three general options for Council to consider:

1. Awarding the top two scores only. The City is not required to award all three licenses. He mentioned the three applicants that are tied for third could or may have started the process submitting their site plans for consideration at their own risk.

2. Do what was set forth in the ordinance, a lottery, and he said it would have to be determined to identify and break that tie.

3. Direct city staff to develop a proposed ordinance amendment that would allow for changes to what is stated currently in the existing ordinance that is limiting it to three businesses.

Public Comment:

Scott Roberts, attorney representing Seven Point Dispensary of Michigan, advocated for the third option mentioned by Attorney Christ to increase licenses from three to five. He explained the benefits of having more dispensaries, including increases in property values and jobs. He said Seven Point would donate 2 percent of profits to charities including youth assistance programs. He broke down the other profits that would be donated to Berkley organizations and public safety initiatives. He stated other communities in the area that are similar geographically currently have six marihuana businesses.

Kevin Blair, attorney representing Lume, advocated for option three to expand the number of licenses. He said he believes that five businesses are better. He discussed the cons regarding the other two options. He said if you pick five, there is a clear delineation between the top five and the rest of the pack. He said by going to five, the City would make up the lost excise tax as a result of the delay from litigation. He said the City has great candidates that want to be here and anything short of five would produce more delays from the other businesses opening.

Tony Moreno, Berkley, said it only makes sense to go with five licenses. He said you have five businesses that are well qualified when looking at the MERIT scoring system. He listed out the reasons why five would be better.

David King, Berkley, said he is a proponent of option three. He said he would like to see some revenue come into the City and is tired of looking at empty buildings.

Josh Rubin, Berkley, said he is in full support of the City of Berkley issuing five licenses. He said the other plans will lead to more lawsuits thus postponing the businesses opening. He also said the city would have fewer empty buildings and would look better.

Jack Blanchard, Berkley, said he was in favor of three, but after looking at geographic locations, he supports five businesses.

Mayor Terbrack said Council will now discuss the three options. He said he would do a straw poll with Council to see if there is something to offer as a directive to city staff regarding the next steps to take. He said he would like to go around and ask Council their preferred option. He outlined the process of how the straw poll process would take place and asked Council if they understand that process.

Mayor Terbrack recognized this has been a very lengthy process with all the litigation.

Mayor Terbrack asked who preferred the option of three licenses with a lottery breaking the tie.

Councilmembers Hennen and Baker raised their hands.

Mayor Terbrack asked Council who preferred the option to only recommend the top two applicants instead of a larger number opening in the community.

No one present raised their hand.

Mayor Terbrack recognized that even though Councilmember Gavin was not present, this would have been his preferred option. He stated that he is not present so that is not being officially counted.

Mayor Terbrack asked Council who preferred the option to recommend all of the top scoring applications, including all three applicants that tied for third place, therefore allowing a total of five applications to move forward.

Councilmember Price, Mayor Pro Tem Dean, Councilmember Vilani, and Mayor Terbrack raised their hands.

Mayor Terbrack stated they did have an option that received a majority vote of Council. He instructed City Manager Baumgarten and City Attorney Christ to do what is necessary to amend the ordinance in order to allow five applications to move forward instead of no more than three as the ordinance currently states.

City Manager Baumgarten recognized and understood the directive from Council.

Attorney Christ recognized and understood the directive from Council.

Mayor Terbrack said the City would move forward with its normal procedure to amend the current city ordinance as necessary in regards to the number of marijuana licenses to be issued.

Attn: Derrick Schueller, Director of Public Works

Re: Recommendation for Award and Bid Tabulation
DPW Office Improvement Project

HRC Job No. 20200576

Dear Mr. Schueller:

We have reviewed the bids that were received electronically by the City on Wednesday, February 15, 2022, and forwarded to our office on the same day for the DPW Office Improvements Project and have found them to be in order. There were four (4) official bids received. One of the submitted bidders did not attend the mandatory pre-bid meeting and were therefore considered non-responsive. The apparent low bidder is Quadrate Construction, LLC of Macomb Township, Michigan. Please refer to the attached Bid Tabulation for an itemized bid breakdown of the bids.

The low bidder has submitted several satisfactory references for similar projects completed. HRC conducted the reference checks and reported that respondents indicated that the low bidder had performed well on their projects, coordinated their subcontractors well, and had no complaints with the quality of their work. Their company background appears to be well suited to provide the proposed work for the DPW project.

Based on the above, this office recommends award of the Contract to Quadrate Construction, LLC. of Macomb Township, Michigan with a total bid of **\$ \$966,208.00**, subject to the submission of the necessary bonds and insurance, which comply with the contract specifications. We also recommend that an additional **\$75,000** construction contingency be added to the low bid amount. In addition, HRC proposes a not-to-exceed Construction Engineering budget of **\$38,430.00** also be adopted. A breakdown of the construction engineering costs have been attached to this letter.

Based on the above, HRC recommends the City approve the total project construction budget for the DPW Office Improvements Project of **\$1,079,638.00** (not-to-exceed maximum, including costs for contingencies and construction engineering).

Enclosed, please find a copy of the Bid Tabulation for your records. If you have any questions or require any additional information, please contact the undersigned.

The Owner, at his sole discretion, reserves the right to award to the Bidder who, in the sole determination of the Owner, will best serve the interest of the Owner. The Owner reserves the right to accept any bid, to reject any or all bids, to waive any and all informalities involving price, time, or changes in the work, and to negotiate contract terms with the successful Bidder, and the right to disregard all nonconforming, nonresponsive, unbalanced or conditional bids. However, it is the intention of the Owner to award to the low total bid to one bidder. Also, the Owner reserves the right to reject the bid of any Bidder if the Owner believes that it would not be in the best interest of the Project to make an award to that Bidder, whether because the bid is not responsive or the Bidder is unqualified, of doubtful financial ability, or fails to meet any other pertinent standard or criteria established by the Owner.

Each bidder agrees to waive any claim it has or may have against the Owner, the Architect/Engineer, and their respective employees, arising out of or in connection with the administration, evaluation, or recommendation of any bid.

The Bidder is advised that in order to submit a bid on this project, the Bidder must download and complete the Proposal Form (Section 00300) and include the required Municipal references and a **scanned copy of their bid deposit** (in the form of a certified check, cashier's check or bid bond, executed by the bidder and Surety Company, payable to the City of Berkley in the amount of Five Percent (5%) of the amount of the Proposal) with their electronic bid submission. **The original bid deposit for the low bidder will be required to be submitted to the City following the bid letting.**

TAXES

The Bidder affirms that all applicable Federal, State and Local taxes of whatever character and description are included in all prices stated in this Form of Proposal.

ADDENDA

The Bidder acknowledges the following Addenda, covering revisions to the drawings or specifications and the cost, if any, of such revision has been included in the quoted proposal:

Addendum No. <u>1</u>	Dated <u>01/31/2022</u>
Addendum No. _____	Dated _____
Addendum No. _____	Dated _____
Addendum No. _____	Dated _____

FEES

The Bidder shall refer to the General Conditions for allowable Fees for additional work performed, upon Owner's written authorization, by Bidder's own forces and/or for additional work, upon Owner's written authorization, by Bidder's subcontractors.

CONSTRUCTION PERIOD

DPW operations are critical to the City, as such it is desired to have the Interior of the Division I area of the garage closed for construction for as short a time period as possible. **This area is to be closed for a period of no more than 90 days to accomplish this project, from start of demolition to Substantial Completion.** Phasing

of construction at this work area will not be permitted. The unaffected areas of the garage will require full access by DPW personnel at all times, throughout the Construction. Additionally, only one of the site entry gates will be permitted to be worked on a time.

It is encouraged for the Contractor to submit shop drawings and procure all materials prior to closing the garage at the Division I area to ensure the most expeditious construction period possible. It is anticipated to award this project in early March 2022, thereby allowing ample time for the material procurement process. Contractor is to submit a list of long lead time items at the pre-construction meeting in order to show impacts to the construction schedule.

TIME OF COMPLETION

If awarded the Contract for the DPW Office Improvement Project, the awarded Contractor agrees to have the work Substantially Complete by **Monday, August 15, 2022**.

Further, the awarded Contractor agrees to have all work on the project completed by **Friday, September 2, 2022**, including clean-up, punch-list items, final grading, and restoration of the disturbed areas.

The Bidder hereby agrees to furnish the required Bonds, Insurance Certificates, and Policies within ten (10) days after acceptance of this Proposal.

The execution of all work and specific constraints as described in the contract drawings and specifications herein must be strictly adhered to.

Important: A tentative construction schedule is to be included with this proposal for Owner consideration.

LIQUIDATED DAMAGES

Time is of the essence for completion of this project in order to have the Project ready for the City of Berkeley. The Bidder guarantees that the work will be completed within the time limit stated herein before or within the time as extended as provided elsewhere in the Specifications. Inasmuch as the damage and loss to the Owner which will result from the failure of the Bidder to complete the work within the stipulated time, will be most difficult or impossible to accurately determine, it is mutually agreed that the damages to the Owner for such delay and failure on the part of the Bidder shall be liquidated in the amount of Five Hundred Dollars (\$500.00), for each and every calendar day by which the Bidder shall fail to complete the work or any part thereof within the provisions hereof, and such liquidated damages shall not be considered as a penalty.

The Owner will deduct and retain out of any money due or to become due hereunder the amount of the liquidated damages, and in case those amounts are less than the amount of actual liquidated damages, the Bidder shall pay the difference upon demand of the Owner.

It is understood that liquidated damages may be assessed should the Contractor fail to meet the stipulated completion date. Specifically, liquidated damages will be assessed daily beginning **Tuesday, August 16, 2022** for **Substantial Completion**, and **Saturday, September 3, 2022 for the entire project**, until such a time that final completion is achieved.

QUALIFICATIONS/MUNICIPAL PROJECTS/REFERENCES

The City of Berkeley requires the Bidder, as the Prime Contractor, to include **three (3) references** for projects similar to the DPW Office Improvement Project, that included sidewalks, automated gates, office build outs

ATTENTION.

Food Truck Operators

Are you aware that your compressed gas cylinders must be inspected?

Cylinders are required to be requalified, or replaced every 5-12 years depending on the cylinder type, condition, and previous requalification method (Ref. 49 CFR §§ 180.205(d) and 180.209).

The original manufacture/test date and any requalification/retest dates must be presented in a specific manner. Cylinders that are overdue for requalification must not be refilled.

If propane tanks are manufactured to ASTM Standards and built into the truck's body making it difficult to remove, then these tanks are exempt from the DOT reinspection requirements.

For more information, contact the Hazmat Info-Center: 1-800-467-4922.

Original Manufacture/ Test Date

If no requalification markings are found, the cylinder must be requalified within 12 years of the original manufacture date. (Must be requalified by 5/2017 in this example)

Requalification Date

Volumetric Test.

Basic Marking. Must be requalified within 12 years of stamped date (Must be requalified by 7/2026 in this example)

Proof Pressure Test.

"S" indicates cylinder must be requalified within 7 years of stamped date (Must be requalified by 7/2021 in this example)

External Visual Test.

"E" indicates cylinder must be requalified within 5 years of stamped date (Must be requalified by 7/2019 in this example)

Good morning Victoria,

I will communicated my questions with Denise Downen as well, but mine for the event are below:

- What hours do you need the Community Center open if any? And what will the use be *in* the Community Center (just restrooms or additional use of rooms?) We have to staff the building if it is open so I need to know those hours
- What will be used to keep the tents down in the green space behind the Community Center? I want to make sure the grass does not get torn up. Preferably no vehicles driving on the grass.
- If I missed the number of porta-potties my apologies, but these should be noted

Those are my main questions right now and again I will email Denise directly as well. I assume she can answer my questions and our department can sign off on the event.

Thank you,

Theresa

Victoria,

I've spoken with Denise and feel satisfied with the questions I asked and the answers she provided. I signed off on this application last week.

Our department does provide staffing for the Community Center building throughout the four day event. We will work with Denise on hours and also on the general needs associated with the event and the property here at the Community Center complex.

Given my conversation with Denise, Parks & Recreation offers approval of the event from our perspective.

Please let me know if you have any questions.

Theresa

Hi Victoria-

Public Works has reviewed the application for 2022 Berkley Days and the associated 10K run. The event is proposed from May 12 through May 15.

We offer the following comments and request they be forwarded to the applicant:

1. Sunnynoll is noted on the map as "Permit Parking/Loading Zone". Public Safety will need to approve this arrangement and please note the DPW does not have this type of signage in our inventory.
2. We recommend prior notification to all of the residents in the immediate area.
3. The proposed date and time of the 10K run shall be noted (Saturday is preferred to moderate OT costs).
4. Proof of liability insurance is outstanding-the applicant has indicated it will be provided if the event is approved.
5. Public Safety will need to produce a TCO for the event. Once the TCO is received, the event will be programmed in the DPW work order calendar.
6. Please note the cost to the City for DPW labor and equipment is approximately \$2,000 for this event (primarily staffing the 10K run).

Thank you.
